Installation Instructions
Universal Seatback Protector

CLEANING INSTRUCTIONS:

1. Using a large commercial washer without agitator, wash the Seatback Protector using 1/4 cup of a gentle detergent, without bleach, in cold water. Do not pour detergent directly onto the Seatback Protector.

2. Rinse the Seatback Protector twice (2X) to remove all of the detergent.

3. Hang and allow to air dry.

SPOT-CLEANING:

1. Mix one ounce of a gentle detergent, without bleach, per quart of warm water.

2. Spray or sponge onto the Seatback Protector.

3. Rinse with plain water (until no suds) and allow to air dry.
